Beginning December 1, 2019, all applicants for renewal and initial Tradesman Plumber Limited licenses are required to obtain a fingerprint background check per Board Rule amendment 363.2 (f). Currently, the board has amended its rules to begin the fingerprint background check to include **only new and renewal Tradesman Plumbers. However, in the near future, all licensees and registrants will be required to obtain fingerprint background checks. Therefore, applicants for any other license or registration type, renewal or new, may also wish to complete the above fingerprint background check process prior to the requirement.**

In most cases, this is a one-time process for those that do and do not have past criminal convictions. Applicants who have past criminal convictions or have received a conviction since their last renewal must also submit a SCHIF (Supplemental Criminal History Information Form) available from our website along with their fingerprint background check.

DO NOT DELAY!

§363.2 General Qualifications

(f) Fingerprinting Requirements. In accordance with §1301.4521 and Chapter 53 of the Occupations Code, the Board conducts reviews of individuals seeking licensure by the Board with a criminal background to evaluate their fitness and determine whether their criminal background disqualifies them from being licensed by or registered with the Board.

In accordance with §411.122 of the Government Code, the Board is authorized to access criminal background records from the Texas Department of Public Safety (DPS) to conduct such reviews, including the submittal and registration with DPS of fingerprints from an individual seeking licensure with the Board, in order to obtain such records. Specifically, the Board's fingerprinting requirements are as follows:

(1) Fingerprints required. The submittal and registration of fingerprints with DPS is required when applying for the following license or registration types: **Tradesman Plumber-Limited License**.

(2) Resubmittal of fingerprints. The requirement to submit and register fingerprints applies to both an initial application for a license or registration, as well as applications for renewal.

However, once fingerprints have been submitted and registered with DPS, an individual ordinarily will not be required to resubmit their fingerprints, including renewals of a license or registration, or when applying for a different license or registration type.

The foregoing notwithstanding, resubmittal of fingerprints may be required to the extent required by DPS or its third-party fingerprint processing vendor; for example, to comply with new or enhanced fingerprint records requirements, or if additional biometric data is required to conduct criminal background checks.

(3) Fingerprint procedures; fees. An applicant required to submit and register their fingerprints with DPS in accordance with paragraph (1) of this subsection must follow all instructions and procedures outlined by DPS and its third-party fingerprint processing vendor.

The applicant is responsible for and must make payment directly to DPS and/or its designated third-party fingerprint processing vendor, all fees associated with the criminal background fingerprinting process, which is separate from the application fee imposed by the Board.
